TO THE BEAUTIFIERS OF THE COMPLEXION.

SURPRISING EFFICACY. My Eau Divine Ole Venus and Nymph Soap, composed of an eastern botanical discovery of surprising efficacy for rendering the skin soft and fair, as well as imparting a delicate roseate hue to the complexion. As a creator and conservator of that most distinguishing charm of female loveliness, a transparent fair skin, Jules Hauel's Nymph Soap, or Eau Divine Ole Venus, may be said to exert an almost magical influence. Composed for the most part of oriental balsamic plants, to the utter exclusion of all mineral admixture, it is distinguished medicinally, for its extremely bland, purifying and soothing action on the skin; and by acting on the pores and minute secretory vessels, expelling all impurities from the surface, always every tendency to inflammation, and, by this method alone, effectually dissipates all redness, tan, pimples, freckles, sunburn, and other unsightly cutaneous visitations, so inimical to female loveliness. Its use will change a most bilious complexion into one of radiant whiteness; while on the neck, hands, and arms, it bestows a delicacy and fairness which its continued use will happily protect, with every appearance of youthful charm to the most advanced period of life.

Ladies are Cautioned

AGAINST using Common Prepared Chalk.
They are not aware how frightfully injurious it is to the skin how coarse, how rough, how yellow, and unhealthy the skin appears after using prepared chalk! Besides it is injurious, containing a large quantity of lead!
We have prepared a beautiful vegetable article, which we call JONES' SPANISH LILLY WHITE. It is perfectly innocent, being purified of all deleterious qualities; and it imparts to the skin a natural, healthy, alabaster, clear, living white; at the same time acting as a cosmetic on the skin, making it soft and smooth.
Dr. James Anderson, Practical Chemist of Massachusetts says: "After analyzing Jones' Spanish Lilly White, I find it possesses the most beautiful and natural and at the same time innocent white I ever saw. I certainly can conscientiously recommend its use to all whose skin requires beautifying."

IMPROVED COOKING RANGE OF MESSRS. COGGESHALL & BLISS.
THE undersigned having in their house a new improved Cooking Range, constructed by Messrs. Coggeshall and Bliss, of this town; and being fully satisfied with its performance and general utility, take pleasure in certifying to the same, and recommending it to the public as the best thing of the kind with which we are acquainted. We would notice more particularly the Oven, which, by its construction, furnishes a uniform heat, and the baking is performed with less attention and more perfectly, than in any Range or Stove that we have ever used. In a word, it contains many advantages, and consumes a small quantity of fuel.

TO THE LADIES IN PARTICULAR.
MY DEPILATORY POWDER has been found highly beneficial and of great use to ladies who have been afflicted with superfluous hair, principally when its growth has been confined to the upper lip and side of the face, giving a masculine line to the whole features. When used with proper care, and according to the directions, it will be found to be a great relief to the sufferer, and the use of any sharp instrument is entirely avoided, and the hair is removed in five or ten minutes after its application.

This composition is infallible, and warranted to remove superfluous hair. After numerous trials, I have received certificates of success which cannot be contested. For sale, wholesale and retail, at JULES HAUDEL'S, 120 Chestnut-st., Philadelphia, And in Newport by R. J. TAYLOR, and B. H. TISDALE.

PENCIL SKETCHES OF TRAVEL.

LETTER XV.

AMERICAN HOUSE, Cleveland, Ohio, June 17, 1847.

MY DEAR SIR:—

During the last few days I have amused myself by wandering about this beautiful city, and enjoying its rich scenery; I have also taken many delightful rides into the country, with one of the proprietors of the house, who has been very polite and attentive. People from the east visiting this section of the country, will find the American house one of the best in Cleveland;—the house is large and well arranged, the rooms are airy and very comfortable, and the table supplied with the best the markets afford. The proprietors, Messrs. J. & T. Kellogg, spare no pains to make their guests happy and comfortable, and if a man does not enjoy himself under all these circumstances, it is his own fault. Throughout the western country every Hotel has its carriages and baggage wagons, which attend the steamboats and rail-roads, and transport passengers to and from, free of expense—this is quite an important item to a man who is making a long journey.

The society of Cleveland is highly refined, and the ladies are beyond measure beautiful; the ladies of Newport, you know, have a high reputation for their personal charms and attractions—but, without the least disparagement to them, there is no comparison, in this respect, between the two places.

The pleasant rides around and in the vicinity of the city, exceed those of any other place I have ever seen; the roads are excellent, the land rich and well improved, the residences neat and beautiful, highly ornamented with shrubbery and shade trees, and everything that can possibly attract the eye, and charm the fancy. The chief object of all the inhabitants seems to be to vie with each other in the display of a richly cultivated taste as regards the external adornments of their mansions, and the city generally; and this same spirit extends to the adjoining villages, and the country around. Wheat is the great product of the State, and that is one of the heaviest items of business here. The arrangements for the Magnetic Telegraph have all been completed, and the work has been commenced, so that by the first of August the line, it is thought, will be extended from Pittsburgh here. Whenever the English steamer's news is coming up on one of the boats, the pier will be crowded with wheat merchants, and the greatest excitement prevails among them as soon as they receive it; speculation commences, and thousands of bushels exchange hands in the course of a few hours.

About a mile from the city, there is a beautiful cemetery, covering a large tract of land, and well filled with trees, flowers, and various kinds of shrubbery, which makes it a sweet resting place for the dead; the walks are finely laid out, winding through the grounds circuitously around the last mansions of the departed, while the merry birds among the trees sing their delicate carols, and innocently chant the requiem of the deceaseds repose beneath. It is a favorite pleasure-walk, particularly at evening; as the silvery moon-beams shed their pale light through the trees and rest upon the white marble monuments, the scene is enchanting beyond description, and robs death of half its terrors.

Ohio city, quite a neat little place about two miles from here is the residence of many merchants and business men from Cleveland; but it is too near this city ever to be a large place. For the last two or three evenings I have been down on the bank of the Lake, a favorite and fashionable place to promenade, and enjoyed the sunset scene. Travellers may boast of Italian skies and their glorious sunsets, but I am confident that nothing in the world can equal those which I have witnessed here for the last few evenings. The bank is high and romantic, while the Lake stretches out far and wide, like the ocean; beautiful clouds lie piled up in the west, and the sun, sinking behind them, tinges the edges with a golden fringe, and gives them the appearance

of a world on fire.

Steamboats and sail vessels are constantly passing up and down, adding to the beauty of the scene, while the sound of flutes accompanied by rich voices, makes the air echo with melody, and all nature is alive with bewitching enchantment. A person who has not travelled upon these Lakes, has not the remotest conception of their vastness, and the extent of navigation upon them; without them the whole western country would be a wilderness for a century hence—but with them the doors of this great country are being opened to the progress of the age, and its wealth is to be lavished on the million of its increasing inhabitants. Here are some statistics which will give your readers an idea of the subject I am talking upon.

Lake Superior is 400 miles long, 100 miles wide, 900 feet deep, and contains 23,000 square miles. It is 598 feet above the level of tide water.

Lake Michigan is 220 miles long, 90 miles wide, 1000 feet deep, and 670 feet above tide water; it contains 22,000 square miles.

Lake Huron is 240 miles long, 190 miles wide, 100 feet deep, and contains 24,000 square miles; it is 271 feet above tide water.

Green Bay is 100 miles long, 20 miles wide, and contains 2,000 square miles.

Lake Erie is 240 miles long, 80 miles wide, 840 feet deep, and contains 9,000 square miles; it is 965 feet above tide water.

Lake Ontario is 108 miles long, 25 miles wide, 500 feet deep, and contains 600 square miles; it is 232 feet above tide water.

Lake St. Clair is 20 miles long, 14 miles wide, 20 feet deep, and contains 300 square miles; it is 570 feet above tide water.

American lakes are computed to contain 1700 cubic miles of water, more than one-half the fresh water on the globe; and the navigation upon them exceeds that to foreign countries, from the whole continent!—What a singular thing that there should be such immense bodies of water in the midst of the woods, hundreds of miles from the great rivers and oceans.

To-morrow I go up these great Lakes, and will give such accounts of my voyage as I think will interest your readers.

Yours always, FLOXIO.

Miracle.

ON the 4th of August, in the year 1843, a singular scene occurred in the Royal Scientific Institution of France. The aged, white-headed President, his head bare, his arms outstretched, his face radiant with smiles, (for science was triumphant,) and his voice with gratulatory tone, delivered the following report:

"We are astounded at this singular preparation. Where indeed will science stop! Here we have a preparation made in the form of a beautiful piece of soap, which we know by actual practice, to cure every cutaneous eruption, every disfigurement of, and even discolored skin! Where will its magic and singular power cease! The Negro, the Creole, the Yellow Race of the East, and the Red Man of the far West, are alike under the influence of its extraordinary powers of clearing yellow or discolored skin, and making it white and beautiful, and of changing the color of dark, or black, or brown skin." (Here several persons were brought forward by the President, who had used it, in proof of his assertion.)

There are probably few persons of intelligence, who, after reading the above, will doubt the qualities of JONES' ITALIAN CHEMICAL SOAP, in curing Pimples, Blotches, Salt Rheum, Scurvy, Erysipelas, Scare Heads, Oil Sores, Beards and Barber's Itch, Chapped and Tender Flesh, Freckles, Tan, Sunburn, and changing dark sunburn or yellow skin to a pure, clear white, as smooth and soft as an infant's, and in fact every kind of eruption and disfigurement. Read these certificates: [From the N. O. Sentinel, Oct., 1844.]

One of our subscribers, Mr. H. Leonard, informs us that he has been cured of old, scaly Salt Rheum, of eighteen years standing, on his head, fingers and hands, by a cake of an article much advertised lately—we speak of Jones' Italian Chemical Soap. He also informs us that he has tried its effects on his female slave Rose, much marked with sun spots, and he found in two weeks her skin much clearer and whiter.

James Eltham, a painter in Jersey City, was cured of carbuncles and pimples, which he was afflicted with for many years, by part of a cake of Jones' Italian Chemical Soap.

Persons in purchasing this must always ask for Jones' Italian Chemical Soap; and perhaps, as many who have been cheated with counterfeits, will be too much discouraged to try the genuine, we say to such, try this once—you will not regret it; but always see that the name of T. JONES is on the wrapper. For sale in Newport by June 10—4m R. J. TAYLOR.

LORRAINE'S PILLS.
All persons require Purgatives.
DR. LORRAINE'S CURATIVE SYSTEM
OF MEDICINE is rapidly producing achievements
never before known in the cure of diseases. The
immensity of its wonderful results, alone demon-
strate that its principles must be founded on truth.
The relative proportion of Cures by this Medicine
is out of all proportion greater, than by any other
Medicine known.
THE THEORY is, that one blood beats in the
bosom, and flows through the body of every man,
and must be pure, it is the Vital Principle that sus-
tains life.
Physicians, and people of every class are willing
to come forward and announce, in the most public
manner that they have been cured of long-standing
complaints—after another medicine had failed.
In fact there can be no doubt but that Lorraine's
vegetable Pill is the best medicine ever offered to
the public.
See a few public statements of men of truth and
virtue.

Lyons, Dec. 17th, 1843.
Sir: I have sold all the pills I had of you,
please send another lot immediately. The sale of
Lorraine's vegetable Pills is rapidly on the increase,
they are becoming very popular. I sell more and
more every day. As a curative medicine and pur-
gative of the blood, I think they stand unrivalled.
One fact I have noticed, that no one that has used
them finds any fault with them; they have wrought
some very great cures. One lady, who has been
confined to the house and bed, a great part of the
time, for twenty years, is now cured and able to
work most of her time, after having taken 3 boxes
only of Lorraine's Pills! I might name many
other cases where the cures have been as great,
but have not time. Yours respectfully,
J. E. F. MARSH.

Portland, Me., Nov. 7th, 1843.
Sir: Please send us one gross of Lorraine's
Pills, we have sold all we had last. They have
given very good satisfaction, better than any other
pills which we have in our market. I think in a
short time they will take the place of others.
We have had no fault found with them; whatever
but, on the contrary, they have been praised highly.
I think we could have quite a number of highly
respectable certificates from our citizens.
Yours respectfully,
E. MASON.

Chelsea, Jan. 3d, 1844.
Sir: I transmit to you an account of my case
for publication, believing it to be my duty. I
have been confined with the Rheumatism nearly
the whole winter, have had some of the best phy-
sicians of Boston and could get nothing that would
relieve me more than temporarily. I heard of the
wonderful virtue of Lorraine's Pills, I had no faith
whatsoever, but I took them, and it is a solemn fact
that when I had taken but eight pills my Rheu-
matism had entirely left me, and I have remained
well ever since.
N. B. I never took more than one pill at a
time and that on going to bed.
Yours respectfully,
W. M. HALSTAD.

OPINION OF A SKILLFUL PHYSICIAN.
Sir, the operation of Lorraine's Pills is past any
philosophy to find out, how so small a Pill can
produce such wonderful effects. I find that one
of them will operate more than 3 or 4 of any other
Pill, yet in their operation, mild, gentle and com-
forting. On this account, they are more than 100
percent, cheaper, as physic, than any other Medi-
cine I know of.
These Pills are now acknowledged by thousands
who take them daily, to be the only medicine that
fairly takes the Bannier from all others. This ex-
traordinary medicine has actually done wonders
within one year past. They cause no pain or un-
easiness of any kind in their operation, and require
neither change of diet or care of any kind.
The attention of the reader is respectfully called
to the important results from the use of these Pills.
It will be seen, however great achievements have
heretofore been made by the use of this invaluable
medicine, still greater and more remarkable cures
daily happen.

**Bogle's Hyperion Fluid; Or Vegetable Hair
Composition.**
THE subscriber has been induced to bring this
article before the public, at the request of his nu-
merous customers, among whom are physicians
and citizens of the first respectability, who have
adopted its use in their families, and wish others to
participate in its advantages.
The Hyperion is composed of vegetable ingredi-
ents, the secret of compounding and blending which
is known solely to the subscriber. It is an arti-
cle in which a cleansing and purifying wash is
beautifully blended with a most delicate, silky and
glossy moisture never before attained, yet free of
animal grease or essential oils. It clears the pores
of the skin, causes a healthy action in the blood
vessels, nerves, &c., which feed the hair, thereby
preventing BALDNESS AND GREY HAIR.
It entirely frees the skin from Scurf, Dandruff,
and other cutaneous diseases, disposes the hair to
curl, and changes the hairiest hair into the most
soft, glossy, and healthy state, also imparts to it a
darker color and the free use of it, both for the
skirt and hair, in a most healthy and luxuriant
state until the latest period of life.
Ladies will find the Hyperion a great addition to
the toilet, both on account of its delicate and agree-
able perfume, and the great facilities it affords in
dressing the hair, which when moist with the fluid,
can be dressed in any required form, so as to
preserve its place, whether plain or in curls.
When used on children's heads, it lays the founda-
tion of a good head of hair.

DR. BANNING'S PATENT LACE!
An immediate Relief to Incipient Consumption, the
Bronchitis of Public Speakers, Palpitation
of the heart, Dyspepsia, Spinal Weak-
ness, Piles, Protrusion, and Diseases
of Women, without Medicines.
THIS instrument has been examined by Drs.
Mott, Rodgers, Francis, and Griseom of New
York, the faculty of Pittsburgh, Hartford, New
Haven and Middletown, and has obtained for itself
their favorable testimony. The following will
show what kind of testimony might be produced
in many cases:
Middletown, June, 25th, 1843.

Dr. Boardman.
Sir—In answer to your inquiry respecting my
case, I will merely say, that I have been sick since
I strained my breast and loins in May, 1836, from
that time continued to grow worse, when in the
fall of '39, I abandoned business, and have not
done any thing since. I suppose from all I could
learn about my case—frequently raising blood,
coughing very hard and expectorating profusely,
deriving no benefit from my physicians, and all
medicines recommended to me, that my case was
hopeless. Last winter my brother told me he had
heard a good account of Dr. Banning's Lace in
such cases, and was anxious that I should try it;
accordingly I procured one from you, and since I
began to wear it, my breathing, which was very
short and laborious, has become easy and natural;
the pain and fluttering or palpitation of the heart
has subsided; cough and expectoration greatly
lessened, my limbs which were exceedingly pain-
ful have become useful, so that I can walk com-
fortably. I am able to shave myself with comfort,
which for many years I have not been able to do.
The pills, which have troubled me for nine years,
are nearly eradicated. I work some in the garden,
and am able to ride 4 miles at once with pleasure
and benefit.
Yours, &c. WM. BANNING.
Dr. G. M. Boardman.

Dr. Boardman.
Dear Sir—In answer to your inquiries re-
specting the effect of Dr. Banning's Lace in the
case of my wife, I will state that for twenty years
past, she has been afflicted with a complication of
complaints to which females are subject. She has
tried all the physicians and all the medicines re-
commended for such complaints, without regard to
expense, and found only temporary relief. Her
most distressing complaints, palpitation of the
heart, oppression and a sense of great weight at
the pit of the stomach, protrusion of the womb, &c.,
were believed after wearing the lace two hours, and
she has continued to improve daily. With this
view of the case I cannot use language strong
enough to convey my approval of the instrument.

to cure you, you will be cured by the use of Cool's
German Salve and Vegetable Pain Extractor.
Extract of a letter from Hon. Harman Knicker-
bocker, Esq., late first Judge of the Supreme
Court, N. Y., &c., Schaghticoke, N. Y.
I was myself attacked with a severe pain in my
ankle and leg, and swelling ensued to an enor-
mous extent, my physician could not relieve me,
after suffering severely a number of days and an
increase of pain and suffering I was considered
dangerous; at this crisis my miller prevailed upon
me to try a plaster of this salve which I did, and
in half an hour I became easy and rested well. I
continued this application and in a few days I was
well. It cannot but prove a blessing to mankind,
if it can be furnished with it.
